

# Blanking plug NPQX-P-PC10

Part number: 8191749

FESTO

## Data sheet

| Feature                                  | Value                                                              |
|------------------------------------------|--------------------------------------------------------------------|
| Size                                     | Standard                                                           |
| Mounting position                        | Any                                                                |
| Pack size                                | 10                                                                 |
| Operating pressure                       | -0.1 MPa...1 MPa<br>-1 bar...10 bar<br>-14.5 psi...145 psi         |
| Operating medium                         | Compressed air as per ISO 8573-1:2010 [7:4:4]                      |
| Information on operating and pilot media | Operation with oil lubrication possible (required for further use) |
| Corrosion resistance class (CRC)         | 3 - High corrosion stress                                          |
| LABS (PWIS) conformity                   | VDMA24364-B1/B2-L                                                  |
| Ambient temperature                      | -10 °C...60 °C                                                     |
| Product weight                           | 1 g                                                                |
| Type of mounting                         | With retaining clamp                                               |
| Note on materials                        | RoHS compliant                                                     |
| Blanking plug material                   | PA-reinforced                                                      |
| O-ring material                          | HNBR                                                               |
