

# Stop kit KSM-10

Part number: 175835

FESTO

## Data sheet

| Feature                          | Value                      |
|----------------------------------|----------------------------|
| Size                             | 10                         |
| Adjustment range of swivel angle | 0 deg...200 deg            |
| Swivel angle                     | 200 deg                    |
| Mounting position                | Any                        |
| Precision adjustment             | -5 deg                     |
| Structural design                | Stop lever                 |
| Position sensing                 | None                       |
| LABS (PWIS) conformity           | VDMA24364-B1/B2-L          |
| Ambient temperature              | 0 °C...60 °C               |
| Product weight                   | 100 g                      |
| Covering material                | PA-reinforced              |
| Stops material                   | high-alloy stainless steel |
| Housing material                 | Aluminum<br>Anodized       |
