

# Power supply module VABF-C8-12-P3A5-QX

Part number: 1894888

FESTO

## Data sheet

| Feature                          | Value                            |
|----------------------------------|----------------------------------|
| Operating pressure               | 0 MPa...0.8 MPa<br>0 bar...8 bar |
| Corrosion resistance class (CRC) | 0 - No corrosion stress          |
| LABS (PWIS) conformity           | VDMA24364-B1/B2-L                |
| Temperature of medium            | -5 °C...60 °C                    |
| Ambient temperature              | -5 °C...60 °C                    |
| Product weight                   | 13.8 g                           |
| Pneumatic connection 1           | Prepared for cartridge           |
| Note on materials                | RoHS compliant                   |
| Housing material                 | PA-reinforced                    |
