

# Flange mounting FZF-1/2"

Part number: 546553

FESTO

## Data sheet

| Feature                          | Value                            |
|----------------------------------|----------------------------------|
| Size                             | 1/2"                             |
| Mounting position                | Any                              |
| Corrosion resistance class (CRC) | 2 - Moderate corrosion stress    |
| LABS (PWIS) conformity           | VDMA24364-B1/B2-L                |
| Ambient temperature              | -40 °C...150 °C                  |
| Product weight                   | 23 g<br>0.81 oz                  |
| Note on materials                | RoHS compliant                   |
| Mounting material                | Wrought aluminum alloy, anodized |
| Material of screws               | Galvanized steel                 |
