

# Mounting bracket SAMH-L2-A

Part number: 8077964

## Data sheet

| Feature                                    | Value                         |
|--------------------------------------------|-------------------------------|
| Note on materials                          | RoHS compliant                |
| Size                                       | 23x20x11.2 mm                 |
| Type of mounting                           | With through-hole             |
| Product weight                             | 15 g                          |
| Housing material                           | high-alloy stainless steel    |
| Corrosion resistance class (CRC)           | 2 - Moderate corrosion stress |
| LABS (PWIS) conformity                     | VDMA24364 Zone III            |
| Selection of additional sensor information | Mounting attachments          |
