

# Indexing conversion kit DADM-CK-90-4

Part number: 548105

FESTO

## Data sheet

| Feature                          | Value                                     |
|----------------------------------|-------------------------------------------|
| Size                             | 90                                        |
| Corrosion resistance class (CRC) | 2 - Moderate corrosion stress (installed) |
| LABS (PWIS) conformity           | VDMA24364-B2-L                            |
| Note on materials                | RoHS compliant                            |
| Plate material                   | Steel                                     |
| Material of screws               | Steel                                     |
