

MIDORI's Compact Angle Sensor

CP-20H

Usage Case

Case 1

User

A Film Manufacturing Equipment maker

Market

Converting

Installed

Winding device

Application

Dancer roll control
 ● Tension control of film

User's Voice

Owing to **Contactless type**, the number of maintenance has been decreased then we could reduce our running cost. CP-20H is long life so **reliability had been improved from our customers**.

Case 2

User

A Bike parking facility maker

Market

Control device

Installed

Gate system at Bick packing lot

Application

Opening/Closing control of entrance gate

- Detecting opening/closing angle of flapper.

User's Voice

We had used a contact type potentiometer so we needed to replace it regularly. CP-20H is **contactless type**. **We do not have to replace it frequently**.

Case 3

User

A Healthcare device maker

Market

Medical & Healthcare

Installed

Electric wheelchair

Application

Lever control
● Speed control

User's
Voice

We had used a contact type potentiometer so we needed to replace it regularly.
CP-20H is **contactless type**. We do not have to replace it frequently.

Case 4

User

A Gaming machine maker

Market

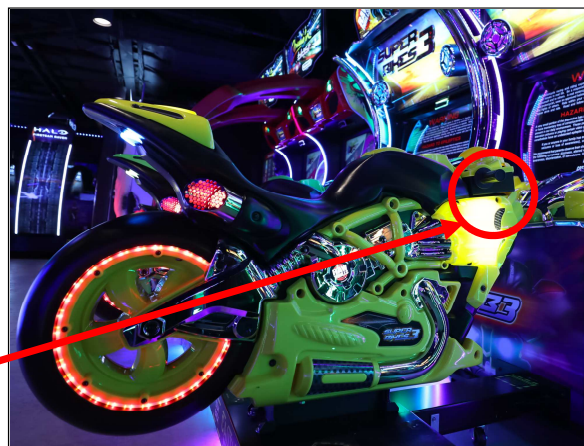

Amusement

Installed

Motorcycle simulator

Application

Detecting throttle position angle
● Detecting rotational angle

User's
Voice

The machine has minute vibration during operation.
Contactless type, CP-20H is not influenced vibration so much so it has been helpful for us **to detecting angle stably**.
